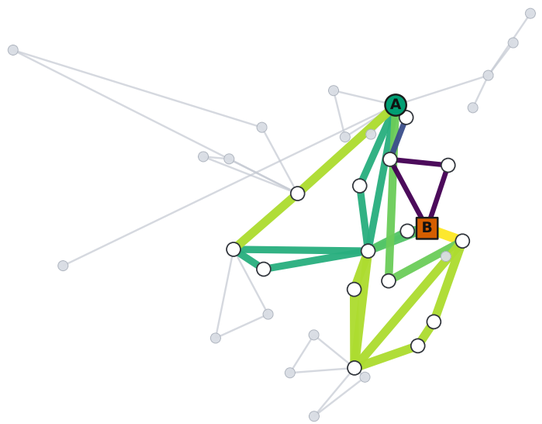
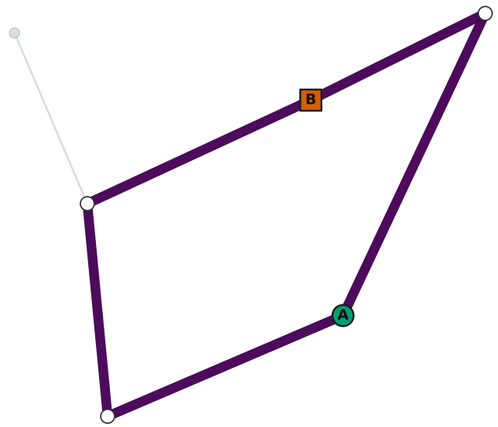
Five frozen Topology Bench calibration networks

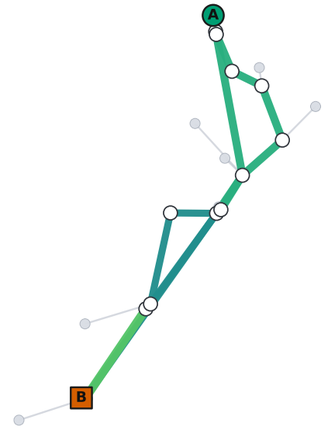
CERNET
|V|=36, |E|=51, routes=35, Eve actions=113
lowest gap: Tsallis-INF / Tsallis-INF = 0.0265



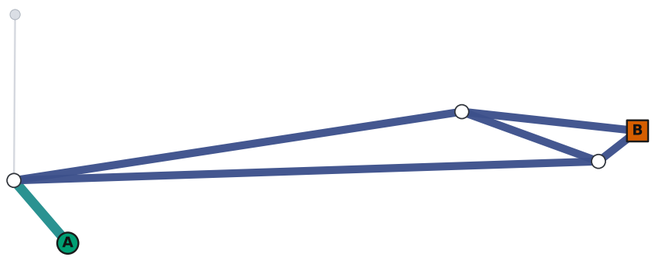
Hibernia Ireland
|V|=6, |E|=6, routes=2, Eve actions=23
lowest gap: Tsallis-INF / Tsallis-INF = 0.0060



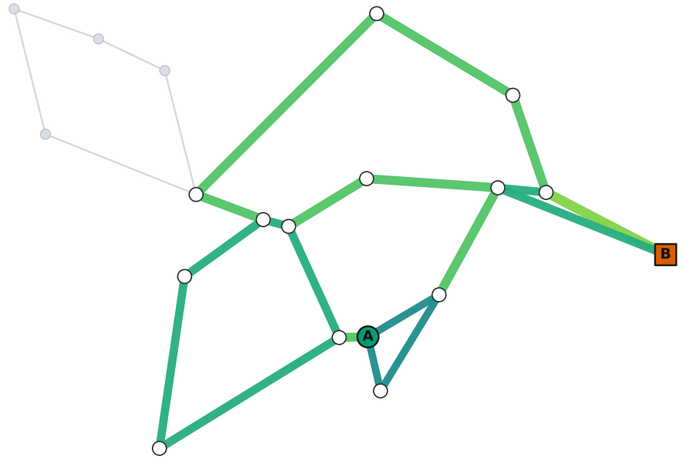
KAREN
|V|=22, |E|=25, routes=12, Eve actions=83
lowest gap: LinearExp2 / Tsallis-INF = 0.0071



Layer42
|V|=6, |E|=7, routes=4, Eve actions=25
lowest gap: Tsallis-INF / Tsallis-INF = 0.0047



Memorex topology
|V|=19, |E|=24, routes=16, Eve actions=91
lowest gap: Tsallis-INF / Tsallis-INF = 0.0307



How to read the networks

Gray link
present in the Topology Bench graph but absent from this Alice/Bob assignment's candidate routes

Colored link
used by at least one candidate route; color and width encode the exact number of candidate routes using it

Green circle / orange square
Alice / Bob endpoints

The displayed layout is geographic context when corpus coordinates exist. It is not a fiber-length scale.

Candidate routes are all cycle-free Alice/Bob paths inside the declared 16-hop scope; no service-quality filter is applied.
