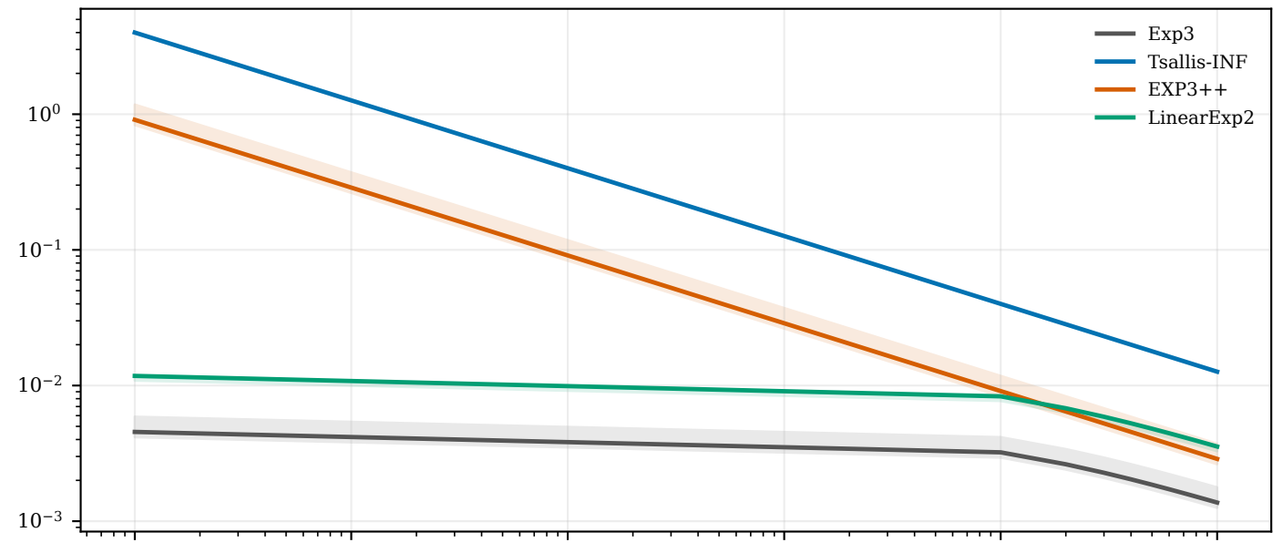
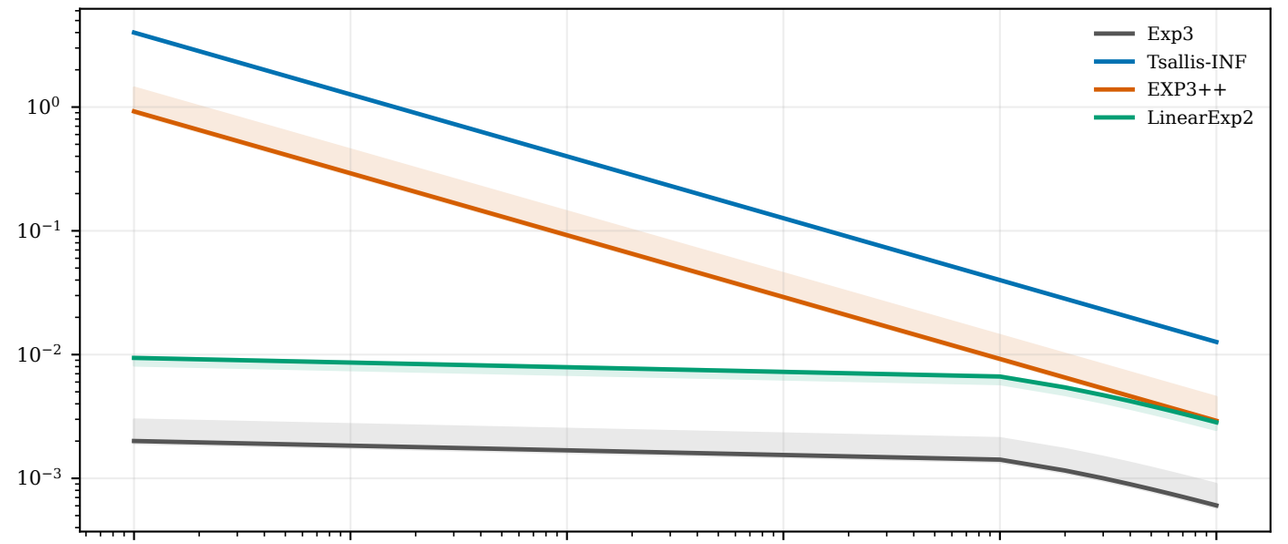
Selected schedules and realized exploration during 100k confirmation

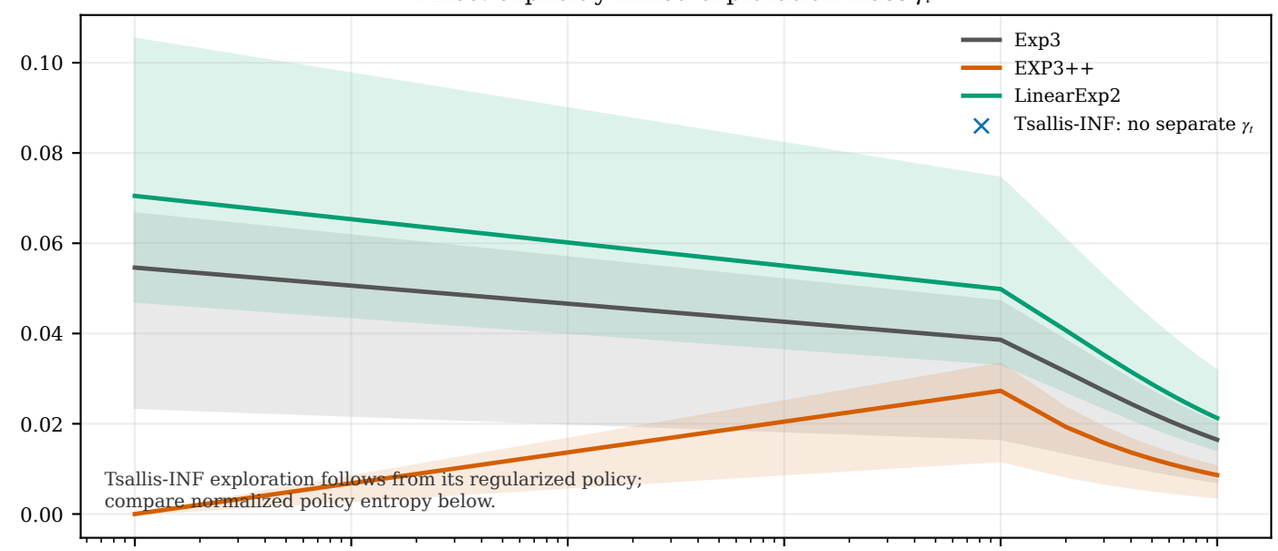
Alice: algorithm-internal learning rate



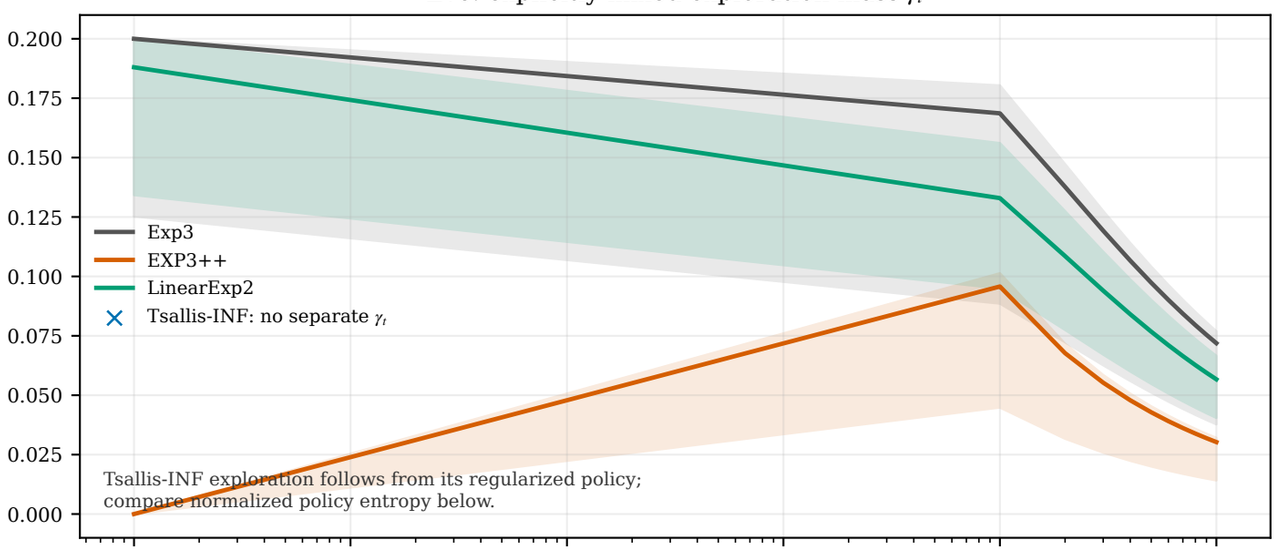
Eve: algorithm-internal learning rate



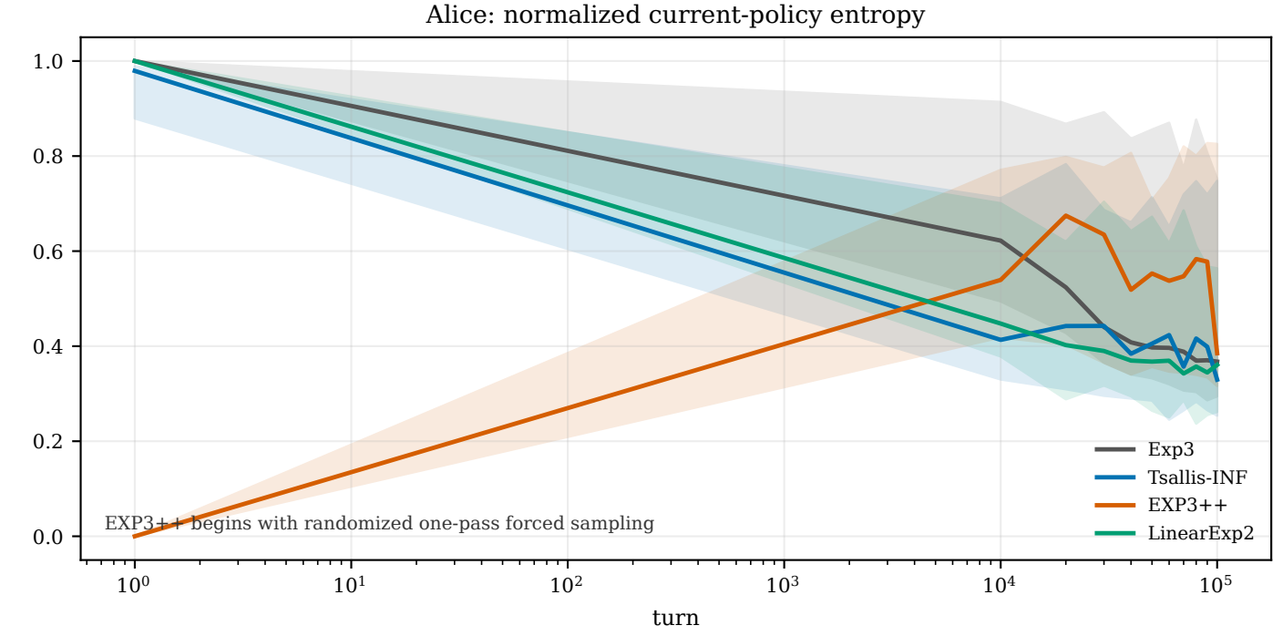
Alice: explicitly mixed exploration mass γ_t



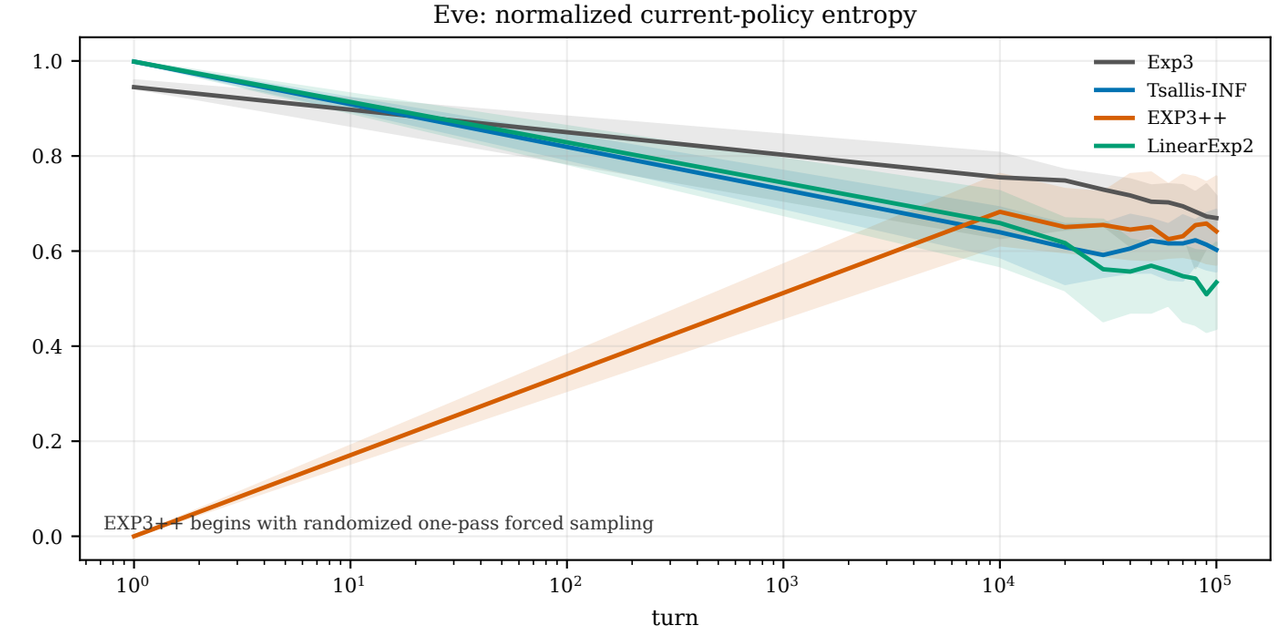
Eve: explicitly mixed exploration mass γ_t



Alice: normalized current-policy entropy



Eve: normalized current-policy entropy



Lines are medians across topology, opponent family, and seed; bands are interquartile ranges. Raw eta values are internal to different update equations and must not be compared as a common physical scale.
