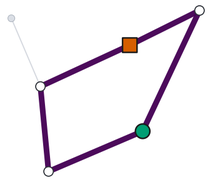
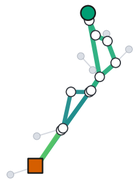
Network structure beside the topology-resolved learner comparison

CERNET (|V|=36, |E|=51, routes=35, attacks=113)

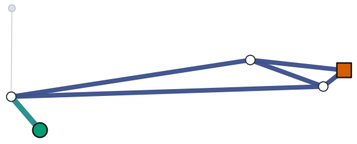
Hibernia Ireland (|V|=6, |E|=6, routes=2, attacks=23)



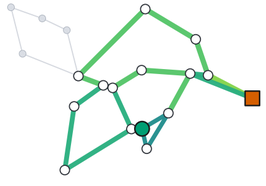
KAREN (|V|=22, |E|=25, routes=12, attacks=83)



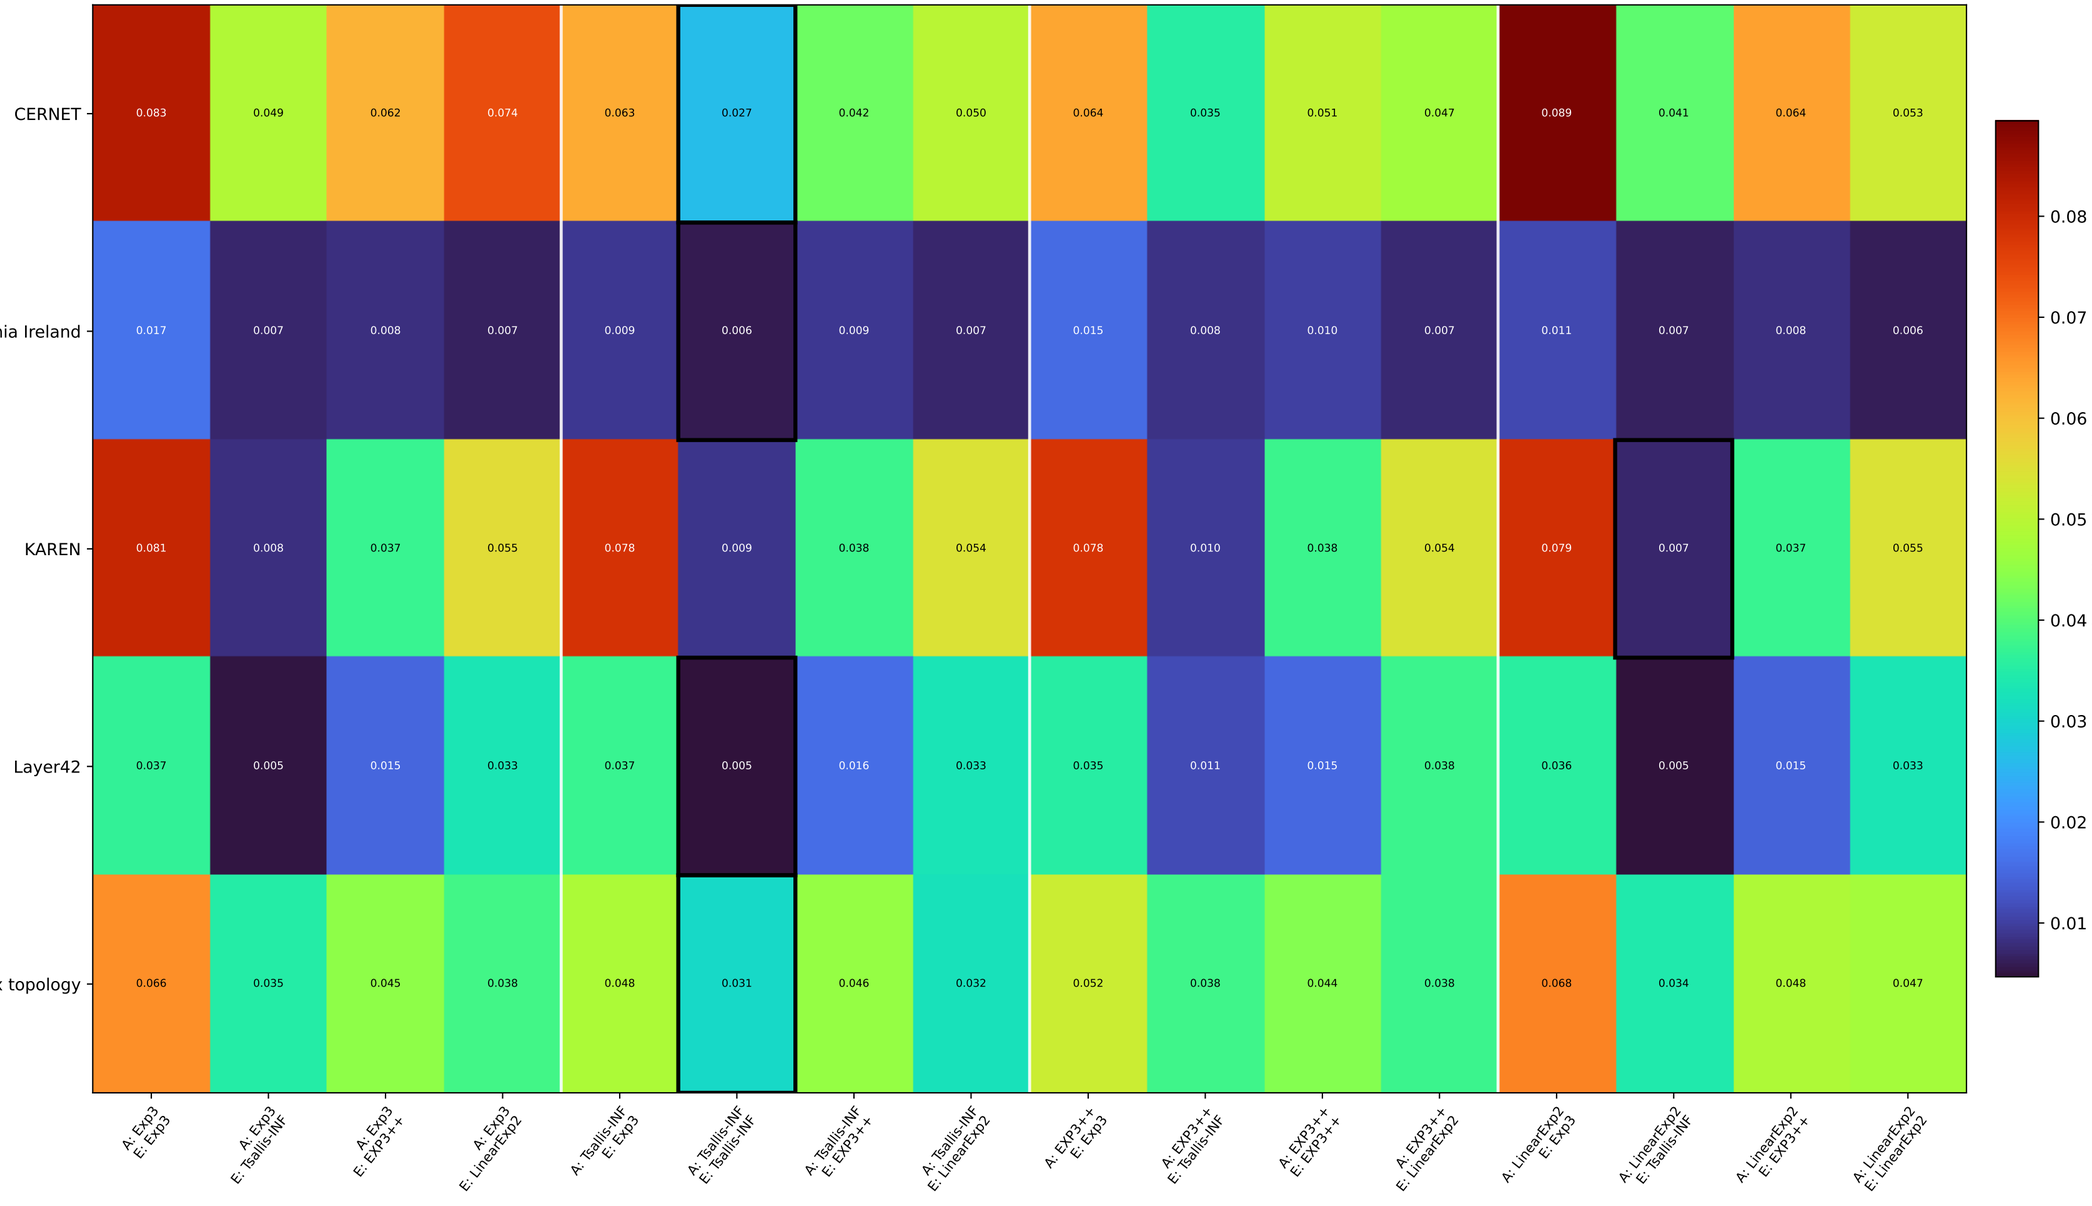
Layer42 (|V|=6, |E|=7, routes=4, attacks=25)

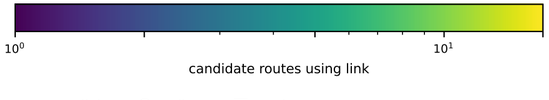


Memorex topology (|V|=19, |E|=24, routes=16, attacks=91)



100k calibration Nash gap by Alice/Eve learner pair





Network color/width is candidate-route multiplicity. Gray links are outside the selected Alice/Bob route corridor. Layout geometry is not the physical fiber-length scale.
